COMMENT

The April 18, 2001 amendments delete the sales and use tax provisions that would have provided an exemption for sales and purchases of farm equipment purchased by an individual in the San Joaquin Valley Economic Development Program. The bill would continue to enact the San Joaquin Valley Economic Development Corridor Act of 2001 to establish a program to enhance economic development within the boundaries of the San Joaquin Valley Economic Development Joint Powers Authority. These provisions would fall under the purview of the Trade and Commerce Agency.
